

## WISEENERGY GROUP ANNOUNCES APPOINTMENT OF GLOBAL CHIEF EXECUTIVE OFFICER

**London, May 25, 2018**

WiseEnergy International (“WiseEnergy”), the leading Asset Manager and Advisor for asset owners and lenders in renewable energy, is pleased to announce the appointment of Abid Kazim as Chief Executive Officer.

In his new role, Abid will oversee all WiseEnergy’s activities and drive implementation of its expansion into new markets and new services.

Previously, since 2013, Abid was Managing Director UK for NextEnergy Capital. Abid has operated in solar since 2007, advising, developing and managing portfolios across international markets.

“Over the last 10 years, WiseEnergy has grown exponentially, in its traditional markets, across new regions and by offering innovative products and services to its client base” stated Aldo Beolchini, Board Member of WiseEnergy. “Wise has become the partner of choice for owners and lenders to renewable assets.”

“I am very excited about taking on this role” stated Abid Kazim. “The international opportunity for a market leader like WiseEnergy in such a high-growth period for renewable energy globally is enormous, and our strategy is to capitalize on WiseEnergy’s leadership position across markets to achieve incremental growth. I expect WiseEnergy to announce new offices in new geographies in very short order.”

### **About WiseEnergy International**

*Founded in 2008, WiseEnergy ([www.wise-energy.eu](http://www.wise-energy.eu)) is the largest full-service provider to owners and financiers of renewable energy plants internationally and the only fully integrated asset management company providing a complete range of technical, financial, administrative and operational services. Furthermore, WiseEnergy provides Knowledge led Advisory services through its WiseLAB a dedicated division focused across the lifecycle of renewable energy investments, where the experience of managing assets over 10 years educates the services and intelligence shared with clients. Its customers include some of the leading international banks and financial investors such as investment managers, private equity funds, listed investment vehicles and family offices. With offices in Italy, the UK and France, WiseEnergy employs more than 50 people with a widespread expertise in technical, financial, administrative, corporate, accounting and tax aspects. Since its foundation, WiseEnergy has provided value-added services to over 1,300 PV plants for an overall capacity of 1,900 MW and an aggregate asset value of approx. €6 billion.*
