

WiseEnergy will attend PV Operations Europe 2019

The [Conference and Exhibition dedicated to Asset Management, O&M and Energy Storage](#) is scheduled to run in Munich on the 27th and 28th February.

Our CEO, Abid Kazim is going to speak about Market Trends in 2019.

Below you find some topics that will be illustrated during the session:

- What are the key industry trends - who is investing, secondary market involvement and how will this impact the overall market
- What are the trending operating costs for asset owners and how can these costs be controlled
- What are the targeted returns for investors, and how can this maximize the profitability of your Asset Management and O&M strategy

Don't miss it!
